

## General

**About** ATOS Pharma is a pioneer Phyto-pharmaceutical company in Egypt, which adopts the concept of natural healing by enhancing the body's own healing forces using natural remedies from herbal extracts, dietary supplements and orthomolecular medicine. In the process of all illnesses there are energetic and biochemical imbalances either in the form of deficiencies of vital substances or accumulation of harmful metabolites, which in turn disrupts the health state of the human being. ATOS Pharma's products are basically aiming to heal the whole person rather than just suppressing the symptoms of the diseases, in accordance with this principle ATOS Pharma is manufacturing its range of products to offer more comprehensive natural method of treatment for a variety of diseases through regaining the balance of the human being as a whole.

**Supply Chain** Following the principles of transparency, ATOS Pharma strives for honest and fair collaboration throughout the entire supply chain. The prices for raw materials are set according to Fairtrade principles and assure a fair distribution of the value generation to the suppliers. ATOS Pharma fosters the long-term relations with the suppliers through guaranteeing purchase of certain amounts of raw material and helping to pre-finance the cultivation.

## Quality

**General** The outstanding efficacy, tolerability, and therapeutic effects of the products are maintained by strict adherence to a comprehensive set of guidelines and rigorous quality controls as well as the implementation of Good Laboratory Practices (GLP) and Good Manufacturing Practices (GMP). The production process which complies with national and international regulations that conform ISO 9001 standards. ATOS Pharma also complies with ISO 17025, ISO 14001, OHSAS 18001 and Demeter standard.

**Phyto-pharmaceuticals** Most of ATOS Pharma products are phyto-pharmaceuticals. This means that their active substances come from plants.

## Sustainability

**Holistic Approach** ATOS Pharma was the first company in Egypt to support the concept of Holistic and Integrative Medicine that combines the benefits from conventional medicine as well as Complementary and Alternative Medicine (CAM) according to the regulations of World Health Organization. In cooperation with European Universities and international scientific centers, ATOS Pharma has conducted researches in the field of natural remedies as a part of holistic medicine therapies.

**Code of Conduct** This SEKEM Code of Conduct (CoC) summarizes the framework of values guiding the operations of the SEKEM Group. Based on the SEKEM vision of sustainable development, the principles of the UN Global Compact and the relevant UN and ILO conventions, it formulates explicit commitments regarding legal compliance, business ethics, anticorruption, labor standards, human rights and environmental responsibility. ATOS Pharma's Code of Conduct applies to SEKEM operations and all associated business partners and is subject to regular review and development.

## Research

ATOS Pharma constantly invests in researches in order to expand knowledge and develop innovative products. In cooperation with Heliopolis University for Sustainable Development and international institutions a biomedical research team is conducting analyses on sustainable natural medical products.
