

WHAT IS THE SYMPOSIUM ABOUT?

To give you the opportunity to explore a sustainable community in the Egyptian desert, SEKEM offers a five-day hands-on experience, taking place at the SEKEM main farm in Egypt. During this symposium, you will meet experts working in different fields in SEKEM to give you deep insights into the vision and how SEKEM's holistic approach is implemented in its daily working and community life. The program combines both theory and practice and will give you the opportunity to get familiar with all the dimensions of SEKEM's approach for sustainable development.

GET TO KNOW A SOCIAL INNOVATION

How did the vision of the SEKEM founder Dr. Ibrahim Abouleish become reality? How is this social innovation working and how does it affect people's lives? How can an efficient economy, a healthy social life and a living culture develop together? How can partnership between east and west build peace and prosperity?
